Driving efficiency in **education**

## Driving efficiencies and savings through a streamlined and integrated approach to financial management.

In order to provide the best possible education for your students, it is important that your back office systems are efficient and hassle-free. Schools, academies and trusts face significant budgetary challenges, and so a robust, secure and reliable financial management information system (FMIS) is a vital element in the delivery of a sustainable financial strategy.

Education FinancialsLIVE has been designed to support the requirements of academies and trusts and is easily scalable should you join a trust or gain new academies. Civica has over 25 years' experience of supporting school finance teams with technology solutions designed to cut costs and improve productivity, and FinancialsLIVE is our most comprehensive solution.

## 1 A consolidated approach

With a clear view of finances across your academy or trust, you can see both the bigger picture and focus on the detail. Education FinancialsLIVE provides:

- ▶ Multiple cost centres, nominal codes and additional accounting dimensions – enabling you to compare spending across departments or academies
- ▶ The ability to view individual transactions or gain an overview of your budget, helping you to identify opportunities for cost savings.

## 2 Improved experience

Designed for education finance teams and with user experience as a priority, Education FinancialsLIVE:

- ▶ Offers customisable workflows which allow you to create the best possible configuration for your school, academy or trust
- ▶ Provides real-time access to financial information, securely hosted in the cloud, from any device.

## 3 Increased accuracy

When it comes to your financial data, Education FinancialsLIVE gives you peace of mind. The solution:

- ▶ Is designed to eliminate the need for entering information more than once, reducing the margin for error
- ▶ Automates many of the key aspects of the 'purchase to pay' cycle – from requisitioning to receipting – streamlining processes and minimising risk.

## 4 Faster, more useful reporting

Providing comprehensive reports to all stakeholders is quick and easy; with Education FinancialsLIVE you can:

- ▶ Create and schedule bespoke, regular management reports on any data in the system
- ▶ Make better decisions informed by real intelligence.

# Delivering better outcomes

Education FinancialsLIVE helps you and your team streamline your finance processes with relevant data immediately available from one comprehensive system.

## The solution will help you:

- ▶ Deliver cost savings and efficiencies through more effective deployment of staff, minimising duplication of work and automating manual tasks
- ▶ Improve financial transparency across your school, academy or trust with a consolidated financial view and the ability to drill down and see what is being spent and where
- ▶ Make better, more informed decisions based on real-time information, using powerful data analysis tools, which allow you to take positive actions.

Education FinancialsLIVE is designed for schools, academies, and trusts.

Designed to meet your evolving financial management needs, it provides the features that are right for your organisation today and can adapt future as your requirements change.

# Education FinancialsLIVE: modules

Designed to support modern schools, academies and trusts, each module is built to maximise efficiency and return on investment.

## ▶ General ledger

Designed with virtually unlimited user-defined coding levels, the general ledger includes a wide variety of journal options, unlimited budget types, profiles and commitment accounting all with online validation to minimise errors. Intelligent transactional workflows with dynamic alerts ensure users of all levels are empowered to work efficiently.

## ▶ Creditors

Streamlined standard creditor transaction processing provides all the vital information about your creditors' invoices and payments. This ensures creditors are paid promptly and efficiently.

## ▶ Debtors

Automates invoicing and billing processes, ensuring that charges and payments are managed effectively and efficiently, with documentation stored online for instant access.

## ▶ Asset management

Provides for full parent and child associations to enable component accounting. Fully integrated with the purchase, creditor and general ledgers for automated journaling and asset registration. Reporting and alerts allow for revaluation workflows and maintenance report schedules to be created.

## ▶ Procurement

Automates the requisitioning, authorisation, purchasing and receipting functions. When used in conjunction with the invoice matching and payment processes provided by the Creditors and Cash management modules, it provides a useful 'purchase to pay' solution, helping ensure that best value is achieved.

## ▶ Cash management

Fully automated bank reconciliation module including income as well as expenditure, effectively removing all 'pick and tick' manual reconciliation. Transactions can be imported electronically, or entered manually, with support for cash flow forecasting and multiple bank accounts.

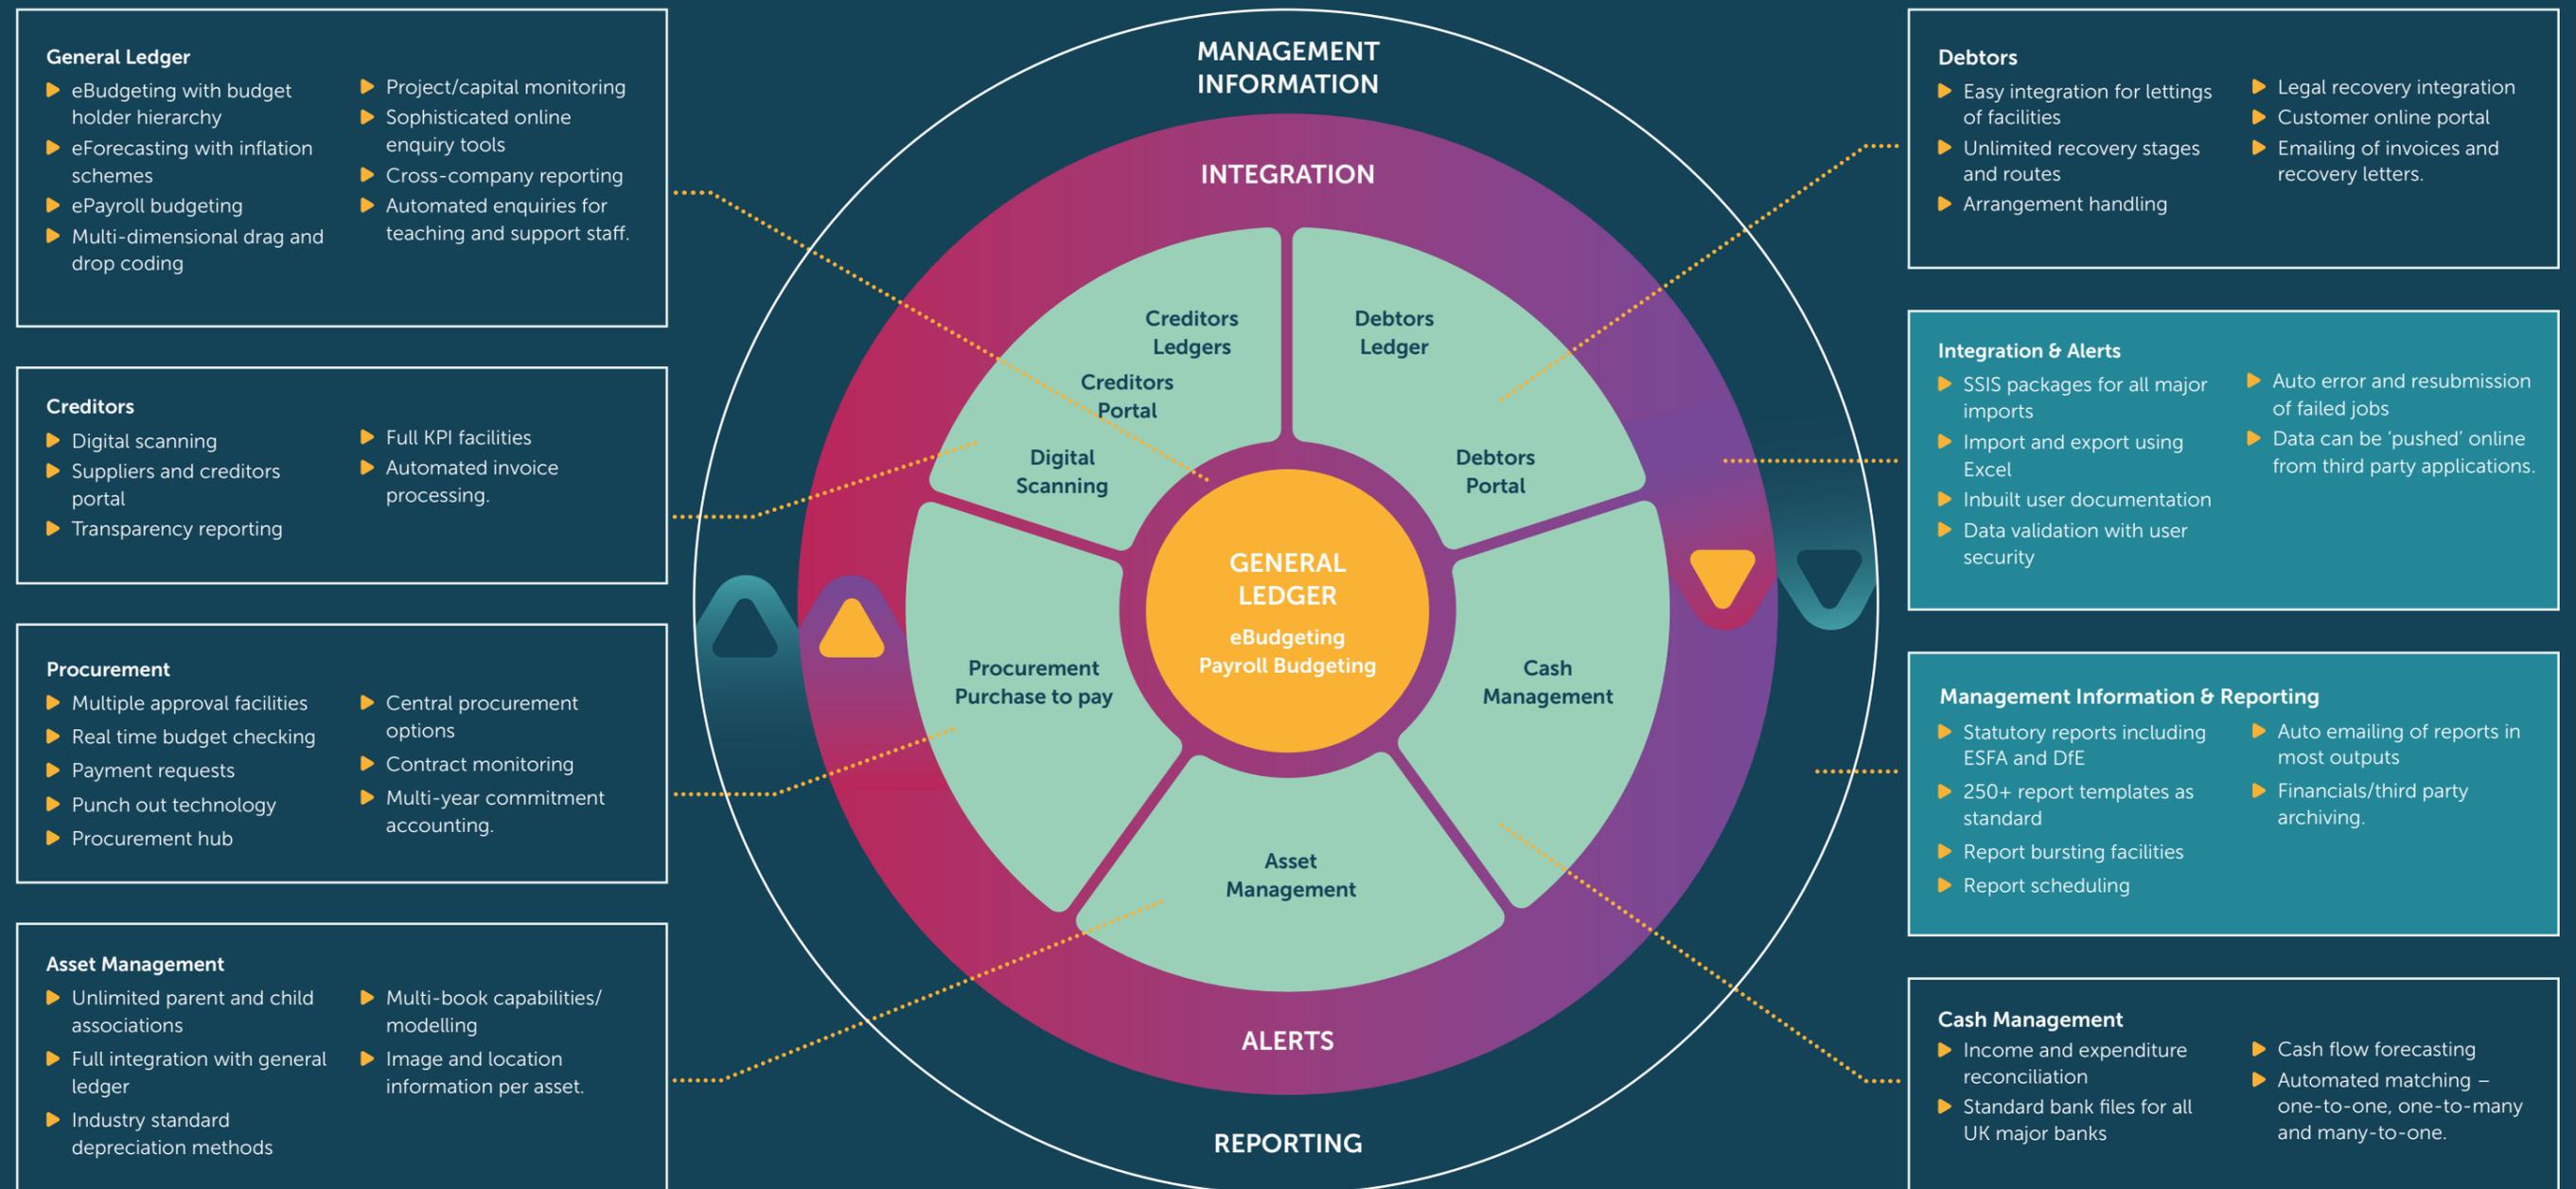

## ▶ Management information and reporting

Comprehensive and powerful analysis and reporting tools ensure that information is delivered quickly and consistently at whatever level you require. Standard reports are provided (month end, statutory returns, budget holder and management), with additional reports allowing customisation.

## ▶ Integration and alerts

The system provides SSIS packages for all major imports, supports Excel import and export, has inbuilt user documentation and automated alerts- all geared towards making your finance department as efficient as possible.
