

CIVICA

Transforming the way you work

Authority Connect Workz

Mobile application for Civica Authority - Work Orders

Civica's work order application allows field workers to action work orders within Authority while in the field.

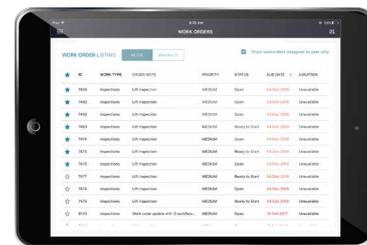

Reduce obsolete, paper-based processes and create efficiencies by using a mobile tablet to get easy access to work orders - anywhere, at anytime.

Purpose Built for Local Government

Authority Connect: **Workz**

Allowing field workers to action work orders within Authority, on the go.

Workz **allows field workers to receive work orders in the field**, along with relevant documents. With Workz, a field worker can update and complete a work order on site, **reducing double handing and paper based processes**. Instant syncing means that Authority is up to date whenever a work order is updated.

- ▶ **Mobility** - Manage work orders in the field
- ▶ **Usability** - Easy interaction with app interface for latest update on work orders including latest pictures and records
- ▶ **Efficiency** - Allow your field workers to work at maximum efficiency, completing administration as they complete tasks

 Create/Delete/Edit/Save search criteria

 View and add attachments

 Complete and update work order tasks

 View maps in standard, hybrid or satellite mode and open work order details

 Data access only via authentication

 Offline data access. Users can complete all tasks without a network connection

If you have any questions or would like to arrange a demonstration of **Authority Connect: Workz** please contact your Account Manager or email us at LGenquiries@civica.com.au
